The Hercules Power-Rated 5000

is ideal for small commercial swimming pools like those found at hotels and motels, and pools incorporated within health clubs.

The Hercules Power-Rated 5000 will automatically brush and vacuum the walls, sides, steps and even the waterlines of commercial pools. The on-board pump filters 4225 gallons of water an hour, trapping dirt and debris as small as algae in its self-contained reusable two micron filter bag. And, the Hercules Power-Rated 5000 automatically shuts-off after five hours of operation.

From reliability of its microprocessor to the toughness of its ABS plastic housings, the Hercules Power-Rated 5000 is engineered to provide years of faithful, trouble-free service.

The unit is delivered complete with caddy cart, transformer, floating cable, operating instructions and warranty documents.

- One (1) Year Warranty

The Hercules Power-Rated 6000

is designed to clean every square inch of your pool utilizing our patented Aqua Smart System™. The Hercules Power-Rated 6000 is the only cleaner of its size to boast so many standard operating features.

This cleaner is perfect for swimming facilities housing pools up to 60' in length like those found at many hotels, motels, schools, universities, hospitals, rehabilitation centers, and fitness clubs.

The unit is delivered complete with stainless steel caddy cart, transformer, cable, omni-directional wireless remote control, operating instructions and warranty documents.

- Automatic Shut-Off after cleaning cycle
- Zero Depth Detection System - Protects the cleaner from out of water operation and overheating
- 4 direction Radio Remote Control
- Two cleaning programs: Floor/Wall Cleaning and Floor Only Cleaning
- One (1) Year Warranty

The Hercules Power-Rated 7000

offers operators and maintenance personnel of mid-size commercial facilities (pools up to 82 ft. in length) many of the features of the wide body Hercules Power-Rated 9000 including the Aqua Smart System guidance technology, in a more compact package. Its body size makes The Hercules Power-Rated 7000 highly maneuverable for "spot cleaning" areas requiring additional attention.

The unit is delivered complete with stainless steel caddy cart, transformer, cable, omni-directional wireless remote control, operating instructions and warranty documents.

- Automatic Shut-Off after cleaning cycle
- Zero Depth Detection System - Protects the cleaner from out of water operation and overheating
- Infrared Obstacle Avoidance / Detection Sensor (Detects obstacles such as movable bulkheads, tile walls and fountains).
- 4 direction Radio Remote Control
- Six cleaning programs
- Advanced Power Supply with LCD display allows total control of cleaning options
- One (1) Year Warranty

The Hercules Power-Rated 8000

incorporates all the functions and features of the Hercules Power Rated 9000 in a compact design. The Hercules Power Rated 8000 unit is suited to pools found at large hotels and public swimming facilities.

The Hercules Power Rated 8000 is equipped with the patented Aqua Smart System, enabling the machine to completely cover the pool and pick up all debris and particles from the pool bottom in one cycle.

The Hercules Power Rated 8000 comes standard with a wireless remote control system. The remote is extremely useful to direct the cleaner to areas of the pool that may require special cleaning attention.

The unit is delivered complete with stainless steel caddy cart, transformer, cable, omni-directional wireless remote control, operating instructions and warranty documents.

- Automatic Shut-Off after cleaning cycle
- Zero Depth Detection System - Protects the cleaner from out of water operation and overheating
- Infrared Obstacle Avoidance/Detection Sensor (Detects obstacles such as movable bulkheads, tile walls and fountains).
- Stainless steel chassis the most durable frame of any cleaner - maintains perfect mechanics and extends component life insuring durability in heavily used commercial facilities
- 4 direction Radio Remote Control
- Six cleaning programs
- Advanced Power Supply with LCD display allows total control of cleaning options
- One (1) Year Warranty

The Hercules Power-Rated 9000

is our ultra-wide bodied commercial pool cleaner, offering features and performance like no other cleaner on the market. Its modern styling and advanced 21st Century technology gives The Hercules Power Rated 9000 the ability to clean any Olympic or semi-Olympic size pool.

The key to The Hercules Power Rated 9000 high-performance characteristics is our patented AquaSmart System. The Aqua Smart System is a unique electronic program linked to a sophisticated directional control mechanism. This combination of on-board computer and electro-mechanical design enables the Hercules Power Rated 9000 to literally map any pool configuration to thoroughly and efficiently clean your aquatic facility in a measured, systematic manner that eliminates wasteful wear and tear overlapping cleaner motions. The result is a significant increase in reliability and cleaning accuracy.

The unit is delivered complete with stainless steel caddy cart, transformer, cable, omni-directional wireless remote control, operating instructions and warranty documents.

- Automatic Shut-Off after cleaning cycle
- Zero Depth Detection System - Protects the cleaner from out of water operation and overheating
- Infrared Obstacle Avoidance/Detection Sensor (Detects obstacles such as movable bulkheads, tile walls and fountains).
- Stainless steel chassis the most durable frame of any cleaner - maintains perfect mechanics and extends component life insuring durability in heavily used commercial facilities
- 4 direction Radio Remote Control
- Six cleaning programs
